SPRING.SUMMER 23

PREVIEW TEXTILE SHOW
30/11 - 1/12/2021

MVG MUSEUM MUNICH

COVID-19 PREVENTION MEASURES

THE 3 MOST IMPORTANT REGULATIONS FOR YOUR SAFE TRADE SHOW VISIT

RECOVERED/VACCINATED RULE

The “2 Screening Rules” decreed by the federal government apply to the exhibition grounds: Recovered/Vaccinated.

Please have a recovered certificate or a vaccination certificate which is recognised in Germany together with your ID card ready to hand when you arrive at the show.

SCREENING STATIONS

Our screening stations are located in front of the entrance to the MVG Museum. Compliance with the “2 Screening Rules” will be checked here. Please calculate app. 15 minutes of your time for this.

FFP2 MASK REQUIRED

Visitors are required to wear a FFP2 mask on the entire exhibition grounds.

We have developed our extensive hygiene concept on the following pages with specialist staff. We have dealt critically with the official requirements, which of course we meet, and even go a few steps further.

Find more information on our new homepage

FURTHER INFORMATION FOR YOUR SHOW VISIT

- **Country entry & exit:** Please inform yourself via the official homepages about the travel and safety information for your country from and to Germany. Please find exception rules for trade show participants under this link:

<https://www.auma.de/en/exhibit/legal-matters/entry-requirements>

- **Official announcements:** Specific information on the general hygiene rules for trade fairs can be found in this announcement of the Bavarian State Ministries (only in German):

<https://www.verkuendung-bayern.de/baymbf/>

- **Validity of the Recovered/Vaccinated certificates:** Please check the individual validity of your proof. Recovery certificates may not be more than 6 months old and must be clearly written in English or German. Vaccination certificates can be presented as a legible printout in German or English or as a QR-code in the app. Here you can find the vaccines approved in Germany:

<https://www.bundesregierung.de/breg-en/search/stand-corona-impstoffe-1836400>

Hand hygiene: Please take care to regularly wash and disinfect your hands.

Shaking hands: Avoid shaking hands and body contact.

Minimum distance: Please maintain the minimum distance of 1.5m from each other at all times.

Sneezing: Sneeze and cough into the crook of your arm.

Entering the fair: Persons with a positive Covid-19 test result or with symptoms of illness as well as those who were in contact with positively tested persons and which are therefore under quarantine, are not allowed to enter the trade show grounds.

OUR MEASURES FOR YOUR HEALTH & SAFETY

As the organisers, Munich Fabric Start Exhibitions GmbH, we will implement the following measures to reduce the risk of infection (as of 15 November 2021):

- **Screening Stations:** Screening Stations will be placed in front of the entrance to the fair, where the compliance with the Recovered/Vaccinated rule will be checked by trained staff on every day of the show.
- **Maintaining the minimum distance of 1.5m:** All entrances, exits and hubs as well as hall, catering and event areas will be thoughtfully and generously planned to avoid crowds of people and to allow visitors, exhibitors and service partners to maintain the minimum distance from each other at all times.
- **Aisle widths:** Aisle widths in the halls are planned according to the flow of visitors, so that one-way systems are not necessary and thus the flow of visitors is not restricted.
- **Avoiding queues:** Measures such as floor markings and e-ticketing are in place to avoid queues.
- **Information:** Information on safety and hygiene measures is provided throughout the venue through various media. Exhibitors will be advised on how to implement and communicate the applicable regulations at the exhibition stands.
- **Hand hygiene:** Sufficient hand washing and disinfection facilities are provided on the exhibition grounds.
- **Cleaning of contact surfaces:** Contact surfaces outside of stand areas will be regularly cleaned and disinfected.
- **Fresh air:** Continuous fresh air circulation is ensured across all areas.
- **Traceability & Maximum number of people on site:** Registering all people on the exhibition grounds ensures traceability and that the maximum number is not exceeded. After considering the number of people from the previous seasons on the extensive exhibition grounds, an exceeding is not to be expected.
- **Gastronomy:** Current gastronomy regulations are implemented in café bars, catering stations and restaurants and people are advised of the self-registration.
- **Ticketing:** Ticketing and admission control is digital and contactless. Visitors are advised that tickets are non-transferable.

These measures will be implemented on site at VIEW Premium Selection Spring, Summer 23.
Short-term adjustments may be made at any time to reduce the risk of infection.

WE LOOK FORWARD TO
WELCOMING YOU AGAIN
FROM 30 NOVEMBER - 1 DECEMBER 2021
AT VIEW PREMIUM SELECTION

**The health and safety of all participants is our top priority.
With your support and taking the actions above into account, we will offer the industry
a professional and inspiring event in Munich as usual.**

If you have any questions, please get in touch with the Munich Fabric Start Exhibitions GmbH team.
